

Step into the future of education....

If you are a principal, you will want to participate in this professional development opportunity!

Principals' Network Series

January 19, 2012

How are social-emotional learning skills and mathematics achievement related? Explore classroom practices and school policies that foster both mathematics learning and students' social-emotional welfare.

Dr. Patricia Swanson, Associate Professor at San Jose State University, will be our guest presenter. Dr. Swanson teaches curriculum and instruction courses in mathematics and provides professional development to K-8 teachers in our region. Her current research focuses on the intersection of mathematics learning, social-emotional skills, and language development.

Time: 4:00 - 7:00 pm

Location: Santa Clara County Office of Education
1290 Ridder Park Drive, San Jose
Gilroy Room, First Floor (map and directions attached)
Light supper will be provided

RSVP: Centerforthechild@gmail.com

Future Dates and Topics:

3/15: Sharing ideas or action to bring social-emotional learning to your schools
