Silicon Valley Education Foundation

Digital Equity and Inclusion

An informative discussion

SAN JOSE, Calif. -- Silicon Valley Education Foundation (SVEF) will host the first informative discussion on Digital Equity and Inclusion with Congresswomen Anna G. Eshoo, Mayor Sam Liccardo, Devon Conley, Poncho Guevara and moderated by Sunne Wright McPeak in a virtual setting. *Digital Equity and Inclusion* will be held online on May 27, 2021, from 3:00-4:00 pm PT.

“SVEF’s 2020 pandemic shift to online learning is one of many examples that has surfaced the growing digital divide across our state and the nation. A necessary first step is to educate our community and understand how to have digital equity.” - Lisa Andrew, President & CEO, SVEF

Digital access and use of online information permeate throughout our lives for work, education, healthcare, government, and the economy. The greatest barriers to broadband services for internet use is [affordability](#) and [accessibility](#).

Infrastructure to rural areas were a top of mind priority prior to the pandemic. Yet without knowledge of access, understanding of use and affordability for all according to the [Public Utilities Commission](#), 2.1 million California households are without broadband access.

The Digital Equity and Inclusion event will cover in depth the splintering of broadband accessibility and will feature:

- **Congresswoman Anna Eshoo, Rep. 18th District**
- **Mayor Sam Liccardo, City of San Jose**
- **Sunne Wright McPeak, President and CEO, CETF**
- **Devon Conley, President, Digital Equity Coalition and Trustee, Mountain View Whisman School District**
- **Poncho Guevara, Executive Director, Sacred Heart Community Service**

Tickets are \$20.00 and all proceeds benefit SVEF.

For event information, or to purchase tickets, visit sveffoundation.org/digitalequity

Proceeds will support the nonprofit Silicon Valley Education Foundation, which brings award-winning STEM learning programs, like Elevate [Math] and the Computer Science Institute, to over 5,000 students per year. SVEF also provides essential training for teachers in under-resourced school districts. Gifts from donors keep programs free for students and

affordable for school districts. Community support also allows SVEF to adapt quickly to students' changing needs during the pandemic, including the pivot to distance/online learning.

Santa Clara County Office of Education is a sponsor of SVEF's *Digital Equity and Inclusion* event. SCCOE is a champion of public education, serving as an exemplary regional resource to students, parents, school districts, community agencies and businesses.
